OKTATÁS CÉLJA / AIM OF THE COURSE

Based on the learned project knowledge from Project 1, the students will work on a complex design project during the semester in pre-selected teams, where the students have to present their proceedings several times during the semester and will end with a closing presentation and documentation. During the consultation, the students have the chance to discuss the progress of their semester project with the lecturers, ask questions and get feedback on the content. The final presentation will be held in front of a jury.
