### OKTATÁS CÉLJA / AIM OF THE COURSE

The students acquire skills which contribute to completing their studies successfully at the university. They learn the latest international methods of learning strategies which enable them to analyse scientific texts in a critical approach. Moreover, they learn how to carry out oral and written tasks individually according to scientific expectations in a creative way.

---

### TANTÁRGY TARTALMA / DESCRIPTION

- 1.week Course description; requirements
- 2.week Organization structure of the university; students' and teachers' expectations at the course; evaluation aspects; formal communication between students and teachers; student creativity and responsibility
