OKTAT3S C3LJA / AIM OF THE COURSE

Students will learn key international business concepts and theories that will enable them understand practical issues of international business. They will also learn how to identify global opportunities and challenges faced by businesses in international environments.

TANT3RGY TARTALMA / DESCRIPTION

Among others the contents of the course are as follows:

- The concept of international business. The primary reasons that make companies engage in international business,
- The concept of globalisation. Methods of globalisation,
- The concept of Foreign Direct Investment (FDI). How social factors may affect FDI,
- How inflation affects international business,
- General characteristics of a country that managers should consider when analysing an economic environment. The specific indicators that help managers measure the economic development, performance and potential of a country.
- The free trade theories of absolute advantage and competitive advantage
- How interest rates affect international businesses
- Relevant marketing considerations in international business
