OKTAT3S C3LJA / AIM OF THE COURSE

Business Studies is a mix of key economic, financial, management, marketing and other concepts to help students analyse and explain what they know instead of just recalling facts and figures. The aims of this course include:

- **Knowledge:** improve the students' ability to recall specific terms, techniques, principles and facts,
- **Comprehension:** enhance the students' ability to understand and interpret information presented in both written and graphical forms,
- **Application:** enable students to use their knowledge (of terms, techniques, etc.) to explain unfamiliar business matters and situations,
- **Analysis and synthesis:** improve the students' ability to distinguish between fact and opinion, to make generalisations, to reorganise information and to test hypotheses,
