OKTATÁS CÉLJA / AIM OF THE COURSE

TANTÁRGY TARTALMA / DESCRIPTION

The course studies the decision making in the European Union that takes places by means of various legislative procedures. The ordinary legislative procedure is the default procedure. When the Treaties indicate otherwise one of the special legislative procedures is used. Secondary legislation is decided upon by means of a seperate set of special procedures. The common values underlining the objective of an area of freedom, security and justice (AFSJ) are long-standing principles of the modern democracies of the European Union. The declared objectives of the Union in this field are:(i) an area of freedom, security and justice with respect for fundamental rights, (ii) to ensure the absence of internal border controls for persons and shall frame a common policy on asylum, immigration and external border control, (iii) to ensure a high level of security, (iv) to facilitate access to justice.
