OKTATÁS CÉLJA / AIM OF THE COURSE

The thesis is the solution of a civil engineering task arising in a specific field, or the development of a research topic, which can be prepared in one semester, based on the student's academic knowledge, by studying additional literature and under the guidance of supervisors.

With the diploma thesis, the candidate proves that he has acquired sufficient proficiency in the practical application of the learned knowledge material, is able to perform the analytical and planning tasks of a civil engineer, and is also proficient in other specialized literature in addition to the curriculum, which he can apply in a value-creating way.
