

Tárgytematika / Course Description

Geotechnical structures and technologies

EKNM_SETA021

Tárgyfelelős neve /

Teacher's name: Koch Edina

Félév / Semester: 2019/20/2

Beszámolási forma /

Assesment: Vizsga

Tárgy heti óraszám /

Teaching hours(week): 2/1/0

Tárgy féléves óraszám /

Teaching hours(sem.): 0/0/0

OKTATÁS CÉLJA / AIM OF THE COURSE

Objectives: Encourage the development of an engineering attitude that allows graduate engineers to design and construct geotechnical structures for full life cycle by balancing functional requirements, environmental constraints, available technology and economical aspects.

TANTÁRGY TARTALMA / DESCRIPTION

Cources

Development of structures, equipments

Piling methods I.

Piling methods II.

Diaphragm wall, pile wall, sheet pile wall

Ground anchors

Ground improvement by grouting

Jet grouting

Deep mixing

Dewatering

Geotechnical projectmanagement

SZÁMONKÉRÉSI ÉS ÉRTÉKELÉSI RENDSZERE / ASSESSMENT'S METHOD

Homework assignments

HW1 Evaluation of English technical paper, presentation

HW2 Solving a technological problem (Proposal)

ITV Final written exam

Final exam will be offered by 4 occasions through the Neptun system. Examination will be closed book/closed notes.

Two part exam

- Part I consists a 45 minute test of 40 questions
- Part II: Solve and discuss a practical construction/design problem. (e.g. excavation support)

Course Grade Evaluation

Class activity – 30 points, HF1 –10 points, HF2 – 10 points, ITV – 50 point

Grades

0 - 49 pont 1 unsatisfactory; 50 - 61 pont 2 satisfactory; 62 - 73 pont 3 fair; 74 - 85 pont 4 good; 86 - 100 pont 5 excellent

KÖTELEZŐ IRODALOM / OBLIGATORY MATERIAL

Literature

Required

John Woodward: **An Introduction to Geotechnical Processes**, CRC Press,2005.

U.Smoltczyk szerk.: **Geotechnical Engineering Handbook Volume 1-3**, Ernst and Sohn, 2003

Moseley, M. P., Kirsch, K. ed. **Ground Improvement**. Taylor and Francis, London, 2004.

Ken Fleming, Austin Weltman, Mark Randolph, Keith Elson: **Piling Engineering**, 3rd Edition, CRC Press, 2014.

Paolo Croce, Alessandro Flora, Giuseppe Modoni: **Jet Grouting: Technology, Design and Control**, CRC Press, 2014.
