The purpose of the Diploma thesis is working out a specific engineering, planning or researching task in the fields of transport infrastructure or geotechnics based on the knowledge of the student gained from previous study objects completed with further literature. The Diploma thesis can be prepared during one semester under the guidance of the supervisors. The student proves with his or her Diploma thesis, that he or she is intelligent of the choosen professional subject and its practical application. Furthermore he or she is able apply additional literature beyond the study material. In the MSc programme the Diploma thesis course has a preparing role for the PhD programms.
