OKTATÁS CÉLJA / AIM OF THE COURSE

The aim of this course is to introduce students to the theory of decision making. It will provide knowledge and tools for future managers to understand the main concepts of decision making process. Additionally, the course aims to help students' self-assessment and insights, to promote collaboration and management skills (such as time management, motivation, communication, teamwork prioritization or conflict management) using practical business simulations. Business simulations are outstanding tools to try real-life business decisions, and to promote experience based learning.
