OKTATÁS CÉLJA / AIM OF THE COURSE

During the urban planning course students gain knowledge about the methodology of urban planning. In the framework of the course different types of plans, such as strategy plans, residential plans, city development plans will be introduced for the students. Students learn about a set of sustainable city development planning tools and transportation development planning tools. Finally students will be able to understand the system of city development and planning and will be able to draw up city development ideas.
