OKTATÁS CÉLJA / AIM OF THE COURSE

Learning objectives

At the end of the course, students should be able to identify, analyse and explain the spatial dimensions of the current economic and social processes by deeper understanding and using the available theoretic models. During the course, particular attention will be paid to the learning and using of the basic concepts and the required terminology.

TANTÁRGY TARTALMA / DESCRIPTION

Topics

1. Space – an exciting challenge for economics?
2. Exploring the world of regions.
3. Globalisation versus localisation.
4. How to choose a good business location?
