

## Tárgytematika / Course Description Design Specialization (Design) 1

MKNM\_DSTA024

Tárgyfelelős neve /

Teacher's name: DLA Karácsony Tamás

Félév / Semester: 2024/25/1

Beszámolási forma /

Assesment: Folyamatos számonkérés

Tárgy heti óraszám /

Teaching hours(week): 0/2/0

Tárgy féléves óraszám /

Teaching hours(sem.): 0/0/0

---

### OKTATÁS CÉLJA / AIM OF THE COURSE

Acquiring the necessary design practice for the specialisation.

---

### TANTÁRGY TARTALMA / DESCRIPTION

NEPTUN

NEPTUN.NET Egységes Tanulmányi Rendszer

---

## SZÁMONKÉRÉSI ÉS ÉRTÉKELÉSI RENDSZERE / ASSESSMENT'S METHOD

### “50 Forint”

Hungary launched a new deposit return scheme (DRS) on January 1, 2024, to boost recycling of single-use drink containers, covering aluminum cans and glass/plastic bottles. Consumers pay a deposit on eligible drinks, which is refunded upon returning the empty containers.

This initiative supports Hungary's goals for a circular economy and aligns with EU directives on plastic waste reduction... **But what else?**

Do some research and see what changes this phenomenon has brought to people's lives? How is it visibly reshaping people's attitudes to waste? What new opportunities does it create?

Reflect on the phenomenon through design.

**Number of contact classes allocated to the course**

Number of lessons: 2 classes/week

### Condition for the semester grade

attendance in classes,

successful participation in mid-semester presentations

final presentation, presentation, mid-term documentation, submission of models/prototypes

### Assessment criteria

Active class attendance and progress, overall status of work presented weekly

### Composition of the grade

Design process - 75%

Final Project - 25%
