Félév / Semester: 2016/17/2

Beszámolási forma /

Assesment: Folyamatos számonkérés

Tárgy heti óraszám /

Teaching hours(week): 0/2/0

Tárgy féléves óraszám /

Teaching hours(sem.): 0/0/0

OKTATÁS CÉLJA / AIM OF THE COURSE

The purpose of the course is to enhance the practical skills (e.g. problem-solving) of the students through a specific project task (preparation of transport infrastructure planning or implementation) in teamwork. Throughout the project work students can get acquainted with the requirements and working methods of engineering tasks in connection with their specialization, while they can also practice working in a team.

TANTÁRGY TARTALMA / DESCRIPTION

A project task has to be prepared, which is connected with the domain of the specialization. The task can be some kind of activity relating to transport infrastructure planning or implementation (e.g. revision of a transport development plan, planning of a small-scale transport-related activity, revision of a plan, creation of a road safety audit or a feasibility analysis, etc.) Through the execution of the task students can deepen their knowledge, and gather or intensify practical skills.
