OKTATÁS CÉLJA / AIM OF THE COURSE

The aim of the subject is to develop the students' knowledge of the basics of architectural design and functionality through housing building design tasks.

TANTÁRGY TARTALMA / DESCRIPTION

Students are introduced to practice methodologies of architectural design and the relationships between function, structure, form and scale through smaller scale shelters, housing buildings and living units.

An integrated part of the course is the so-called Creative Week during the 4th week of the semester, when teams of local and visiting students work together on tasks leading from discovering architectural and spatial theories to the creation of installations.

SZÁMONKÉRÉSI ÉS ÉRTÉKELÉSI RENDSZERE / ASSESSMENT'S METHOD

Pre-requirements of the course: 2 semesters of practical design subjects completed

Credits: 4

Time and place for tutoring sessions: Építész Műteremház / Architect Atelier

Course requirements:

- completion of the main design task on an acceptable level by the deadline
- completion of the sub-tasks during the semester on an acceptable level by the deadline
- completion of the mid-term exam on an acceptable level by the deadline
- active participation at the Creative Week
- active participation at the lectures and discussions during the semester
